BRIGHT FUTURE FORETOLD FOR IRRIGATION BELT

Col. E. R. Doughty, of the C.P.R. D.N.R. Staff at Brooks, sees foundations being laid for Permanent Prosperity—Address Board of Trade

A district thickly settled with contented and prosperous farmers within a few years' time, was the picture painted by Col. E. R. Doughty when he reviewed the problems of settling and farming the irrigation belt.

Col. Doughty spoke at the bi-weekly luncheon of the Bassano Board of Trade on Wednesday, Nov. 23rd. A large gathering of board members, numbering some twenty-seven, listened with keen interest to the speaker's forty-five minute talk.

After briefly reviewing the birth of the Canadian Pacific Railway and the growth and progress of the company, Mr. Doughty launched out on the subject of the problems that confronted the company in the irrigation belt, and how such difficulties were being met and overcome.

The speaker said that much progress had been made during the past few years toward solving the difficulties of the irrigation farmer. Before selling a farm the company now makes a careful survey of the land, measuring the acreage that is irrigable, and the amount of work required in making ditches, tile, and levelling of fields, as well as ascertaining the character of the soil.

All this is taken into consideration in selling the land, and only the most suitable type of settler is chosen. The speaker spoke very highly of the farmers who have settled on the project, and cited a number of instances of some who had prospered exceptionally well during the past few years.

Exhibit Charts
Mr. Doughty had with him two charts which greatly helped to make the text of his address more readily understood. One chart was a table of the cost price of an irrigated farm on the 34 year payment plan. The speaker explained how the plan worked, and how the purchase of the farm could save considerable interest charges by retiring the payments before they fell due.

The other chart was that of a typical new farm ready for sale. All the points of topography such as sloughs, knolls, main ditches, etc., were outlined, having been surveyed by the company's engineers, so that the purchaser could see just exactly what work was required to put the land in condition for the most efficient farming practice.

GEM THEATRE PROGRAM

FRIDAY AND SATURDAY THIS WEEK

Go see it. If you don't, you will miss one of the greatest pictures ever made.

Gem News

GERM. Nov. 24.—Frank Corney is speaking a brand new Bassano. Well to wear, Frank.

According to gossip, several new cars will arrive in the Colony in the near future. Models and Baby Lincolns will be common in 1938.

I. Scheinher and family spent a pleasant Sunday evening with Mrs. Dickmann.

Miss F. Dickmann and brother Max are contemplating a trip to the States at a future date.

On Sunday last Mr. and Mrs. Pollock and family had dinner with Mr. and Mrs. Miller at the old home.

On Friday last the members of the Gem Literary Society, with a few friends, spent a very pleasant evening in the Gem school. Games, musical items, and dancing were enjoyed by all. Lunch was served during the evening. Mrs. Fortney ably assisted the teachers during the evening.

The skating rink at the Gem school is being prepared, and will be flooded in the near future. O. Villet and son Clark are devoting a lot of their spare time to this work in the interests of the school children.

Mr. and Mrs. Sparks enjoyed dinner with Mr. and Mrs. Gossling on Sunday last.

Mr. and Mrs. Jones was an afternoon visitor at Mrs. Wilson's on Tuesday.

Another gang of men came in last Friday to help lay steel on the new railroad.

Joan Norton was a Calgary visitor this week.

Good Settlement Prospects
Mr. Doughty said that he expected to see many new settlers come into the irrigation block next year. The company was receiving many enquiries from prospective settlers, and a number of them have recently visited the project and were greatly surprised at the extent of the development and the excellence of the crops grown there.

TS, new settler the company gives free use of the land for one year, and in the case of the land that was previously farmed, the settler gets free use of the land for two years.

Partners are Prospering
As an indication of the prosperity that is making itself evident in the irrigation project, the speaker said that the great majority of farmers have this year come forward very promptly and voluntarily with the payment of their annual instalments.

An excellent crop had been grown throughout the irrigation block this year, and all farmers had done well on the harvest returns.

See Bright Future
In conclusion Mr. Doughty said that there lay ahead an era of prosperity for the irrigation project. There was now a feeling of much greater stability than there had been in the past, and the future held forth bright prospects.

Farmers South Of Bow River Want Bridge

As a result of the early winter and the great difficulties that are being met in marketing their grain, the need of a bridge across the Bow River just south of Bassano has been forcibly impressed on the farmers who live in that southern district.

Definite steps toward getting something done in this matter have been taken in the shape of drawing up a petition to the provincial government, pointing out the necessity of a bridge in the irrigation belt, and is being signed by all the farmers affected, and will be taken to Edmonton and personally presented by them to the minister of public works.

Major Cross, also of the C.P.R. D.N.R. staff at Brooks, was also present.

The Gem Mail
Carrier Fights
Snow Barriers

Four hour Battle to Make the Trip From Gem to Bassano on Wednesday

It was tough going on Wednesday for A. M. Atkins, the Gem postman and mail carrier. The road was badly drifted with snow which was piled up by the southwest wind that blew all Tuesday night and Wednesday morning. Starting at 9 o'clock in the morning with his sled loaded down with passengers and mail sacks, Mr. Atkins bucked the snowdrifts practically all the way, and did not arrive in Bassano until one o'clock, taking four hours to make the twenty-eight mile trip.

The car had to plough through the deep, hard packed drifts, and many places the snow had to be shoveled away so the car could get through.

Mr. Atkins said it was the hardest trip he has had for a long time, and expected he would have a hard time making the return journey, as the wind continued to blow, filling in the trail he had broken.

can doughboy. He endows the role with all his charm and creates a character that will live forever in the memories of those who see it. Renee Adoree plays Molande, the French girl, in a delightful and inspiring manner. The love scenes between the two are romantic gems. Others in the cast who score distinct hits are Karl Dane and Tom O'Brien.

GOOD TURNOUT AT MEETING OF BOARD OF TRADE

Debate to Send Delegates to Board of Trade Conference in Calgary

About twenty-seven members attended the Board of Trade luncheon in the Hunter Hotel on Wednesday, Nov. 23rd. President E. F. Carrie occupied the chair.

After the reading and passing of the minutes of the previous meeting Secretary Wm. McLean read letters from the Calgary Board of Trade regarding the board of trade conference which will be held in Calgary November 24th and 25th. The meeting decided to send two delegates to this conference. Representatives of boards of trade from many towns in southern Alberta are expected to attend, and many matters of general importance will come up for discussion. There will be speakers from Vancouver, Montreal, and other cities.

Another letter was read from the Calgary Board of Trade respecting a resolution they had passed dealing with the marketing of Alberta coal in Ontario, and the freight rate on coal from Alberta to the eastern provinces. The Calgary board's resolution, and this was adopted by the local board.

A. T. Connolly, speaking for the public affairs committee, brought up the matter of the bridge across the Bow river. The secretary then read a petition that is being circulated by the farmers in the irrigation belt, asking the government to take up the matter of public works for consideration.

A. T. Connolly gave notice that at the next regular meeting of the board he would put a motion for the alteration of Section 4 of By-law No. 3, so that ten members would constitute a quorum instead of fifteen as at present.

After completing the regular business the meeting turned to an interesting address, delivered by Col. E. R. Doughty, of the C.P.R. D.N.R. staff at Brooks. Col. Doughty talked for some time on the problem of the irrigation block, and gave the meeting some valuable information respecting the operations of the company, and how they were being met with the settlement of their lands.

Major Cross, also of the C.P.R. D.N.R. staff at Brooks, was also present.

ARCTIC PERILS HAVE NO TERRORS FOR STURDY MOUNTED POLICE SERGT.

Hugged Ice Fields and Snow Covered Shores of Arctic Archipelago Is "Home" to Sergeant James Wight

Fifteen hundred miles northeast of here, on the rocky, ice scarred shore of Baffin Island, there is a lonely outpost of the Royal Canadian Mounted Police under the command of Sergeant James Wight, brother of Sergeant Robt. S. Wight, of the Bassano detachment of the Alberta Provincial Police.

Sergeant Jim Wight loves this north land. To him it is home. He has spent many years of his life in the north, and he has fought with its cold and its blizzards; wrestled with its shifting ice floes and its treacherous, ice covered shores, and conquered them, and learned to love it.

It is a rough land, and a cruel land for the weak and the timid. It is a land of strong men who joy in the last of battle, who love to match their wits and the public affairs committee, brought up the matter of the bridge across the Bow river. The secretary then read a petition that is being circulated by the farmers in the irrigation belt, asking the government to take up the matter of public works for consideration.

A. T. Connolly gave notice that at the next regular meeting of the board he would put a motion for the alteration of Section 4 of By-law No. 3, so that ten members would constitute a quorum instead of fifteen as at present.

After completing the regular business the meeting turned to an interesting address, delivered by Col. E. R. Doughty, of the C.P.R. D.N.R. staff at Brooks. Col. Sergeant James Wight, commander of the police post at Lake Harbour, and on the left Staff Sgt. Joy, also of the Arctic Patrol.

received their public and high school education.

Sergeant Robt. Wight, of Bassano, has been in the west on police work for many years. He was a member of the Royal Canadian Mounted Police in the pioneer days, and was considered a true type of that force.

His younger brother studied mining, and was for a few years under ground manager for the Dominion Coal Co., at Glace Bay. In 1914 he joined the R.C.M.W.M.P. at the time they were recruiting for overseas, and he came west to Regina.

He received instructions to go with Inspector LaNoue to the Arctic to find two men who were at that time supposed to have been lost near the Coppermine river. He returned to Calgary in August, 1917, with the two Eskimos who he had derided the priests. After the trial he again went north with the two Eskimos as far as Fort Resolution, Northwest Territories.

He returned to Regina the following spring where he joined the Siberian expedition and went to Siberia, returning from there the following year.

He was again sent north to open a police post at Port Burwell, on the Hudson Straits, where he stayed for a number of years, after which he opened another post at Cumberland Sound, Baffin Island, where he was stationed until returning from the Arctic last fall.

The Wights are descendants of late of Lewis and Clark and Glasgow Scotch. Sergeant Jim Wight was born in Halifax, Nova Scotia. Shortly after that the family moved to Haddock, Cape Breton, where both brothers

received their public and high school education.

QUARTER MILLION BUSHELS SHIPPED FROM BASSANO

Greatest Percentage of Wheat Graded No. 2 Northern

Of the 1937 crop in the Bassano district, some 360,000 bushels have already been marketed, according to estimates on hand. This amount is principally wheat, with a considerable amount of rye making up the balance. The estimate includes grain loaded at the two sidings of Hains, just west of Bassano, and Latham, just east, as well as that shipped through the elevators at Bassano.

The two local elevators, the Alberta Pacific under the management of O. B. Warren, and the Ogilvie, with C. W. Haines in charge, have been busy all fall in handling the big crop. Some grain is still coming in, but the roads are bad for hauling and there is no elevating now being done, so the amount being hauled is small.

It is estimated that about thirty-five or forty thousand bushels of wheat are still to be threshed in the vicinity of Latham and Bassano.

Practically all the first wheat to reach the elevators is a hard red wheat of the threshing season graded No. 1 Northern, but later when the standing stocks were dropped with frequent rains, the grain was graded No. 2. About 70 per cent of the wheat already shipped out graded No. 2 Northern; 30 per cent No. 3; and the balance was No. 1.

The average yield for the district is high this year, about 43 or 45 bushels to the acre. Some farmers have yielded as high as 45 bushels to the acre.

Countess News

COUNTRESS, Nov. 24.—Royal Burrows and little daughter, of Camrose, have been visiting at the Hotel home for the past week. They left for Camrose on Tuesday.

Norman McDougall and Mrs. Yates who have been working for Mr. McDougall, left the last of the week.

Mrs. Sluss and Mrs. Gamba spent Friday visiting with Mrs. Cowan.

Mrs. A. M. Anderson was a caller at the Keir home on Tuesday.

Ralph and Royal Burrows went to town on Friday last.

Calgary has 2350 more telephones than Edmonton, says a Calgary newspaper. This indicates that Calgary is either a bigger centre than Edmonton, or that the people of Calgary spend a bigger part of their time talking than those of the capital city.

A man remarked that he supposed the drive over the dome at half past six as a mark of respect to departed modesty. —Melville Hall News.

Henry Ford says that world peace will come only from work. That's right, Henry. It won't come without anything to do they are bound to hatch up some kind of trouble.

MARKING THE FURNISHMENT TEACH A LESSON

A unique form of punishment for criminal carelessness with fire was recently meted out to Arthur E. Corrook, a post office employee, of Seattle, Washington.

Corrook was guilty of having inadvertently started a fire in Squamish National Park last August. In passing sentence the judge required that Corrook must plant 100 trees along the new Pacific highway between Seattle and Everett.

Whether Corrook did the job and put in the trees with his own hands we do not know, but at any rate, the punishment will teach a lasting lesson, not only to the man on whom it was imposed, but also on the general public who make use of the parks for camping.

Too many campers are careless with fire. Punishment by fine does not seem to have any effect in checking this carelessness. The judge who tried the Corrook case hit upon a unique method of punishment, and the lesson should go home to other campers.

HE THEY RIGHT OR WRONG

Four striking miners were killed by state troops at Denver, Colorado, on Monday. The men were shot down when they attempted to storm the Columbia Mine which was operating with strike breakers.

Whether the strikers were in the right or the wrong they surely did not deserve the punishment of death. An unparadise crime has been committed, and on the heads of those who are supposed to administer justice rests the responsibility.

These miners had mothers, wives, and families. Life was dear and sweet to them although they were not blessed with all the benefits and luxuries that are enjoyed by the wealthy classes.

It was to lift themselves up from the depths of squalor and the hardships of penury that caused them to strike. They wanted more money for their labor. More money with which to buy comforts for the home; perhaps a piano, or a new cook stove, or better clothes for their wives and children. Who can blame them for wanting these things? Their lives were largely made up of hard work and drudgery. They wanted more of the sunshine of life.

Perhaps they used the wrong method in trying to gain their end. Perhaps under the present system of civilization, they were receiving all they were entitled to receive for their labor. But they thought they were in the right. The strike was the only method they knew of for bringing about a betterment of their position.

And now those men are dead. They are beyond reach of this world's care and trouble. But they leave behind them mourning wives and children—children who will never again run to the door with the glad cry of "Daddy," and regale him with vivid accounts of the day's fun told in childish chatter.

What cruelty and heart-breaking. Surely this is not justice. That such a thing might happen in the State of America might be expected, but to think that a tragedy of such monstrous cruelty should occur in the United States of America, makes one shudder with horror.

Something is sadly amiss, and the powers that be should see to it that such a tragedy to the happiness of society is removed.

Good Night, Ladies

Leicester, Sept. 8.—Mrs. Esther Lamb, of Auburn Street, left yesterday for New Haven, Connecticut, where she will liberate with her daughter, Mrs. Margaret Rowland, formerly of this town.—Worcester, Massachusetts, paper.

THE FARMER
The King may rule over land and sea
The lord may live right royally.
The soldier ride in pomp and pride.
The sailor roam o'er the ocean wide.
But this or that, what's the benefit.
The farmer, he must feed them all.
The writer thinks the poet loses.
The craftsman follows, wondrous things.
The doctor heals, the lawyer pleads.
The miner follows the precious leads.
But this or that, what's the result.
The farmer, he must feed them all.

The merchant, he may buy or sell
The teacher do his duty well.
But men may toll through pleasant ways.
Or men may stroll through pleasant ways.
From king to beggar, what's the result.
The farmer, he must feed them all.

The farmer's trade is one of worth
His pastures with the sky and earth.
He's partner with the sun and rain.
And no man loves for his gain.
And men may rise and men may fall.
But the farmer, he must feed them all.

God bless the man who sows the wheat.
Who finds us fruit and milk and meat.
May his purse be heavy and his heart be light.
His cattle and cows and all go right.
God bless the seed his hands let fall.
For the farmer he must feed us all.

ALBERTA BONDS BRING GOOD PRICES

The sale of \$367,500 worth of Province of Alberta 4 per cent bonds, due 1946, was made during the week to the Dominion Securities Company, of Toronto at the very favorable price of 97.85. Right offers were submitted by competing firms, and the bids for this large block of provincial securities indicated a keen rivalry for their purchase.

DATES SELECTED FOR U. F. A. CONVENTION

The 125th annual convention of the United Farmers of Alberta will be held from January 17th to 20th. It is announced from the office of the U.F.A., Calgary, it is likely that Calgary will be selected as the meeting place, last year's convention having met in Edmonton. Resolutions to be submitted to the convention are coming in to the U.F.A. office already, and a busy four days' program is anticipated.

Conquering the Heir

Mother—"No, Willie, I don't care what your father says, you are not going to fly to Paris tonight."

Misses Grandson
Wife—"Now that I have my hair bobbed I don't think I look so much like an old lady."
Husband—"No. Now you look like an old gentleman."

One of the indictments of civilization is that happiness and intelligence are rarely found in the same person. —Baltimore American

TELEPHONE 740

They're not alike - -

and yet they are

When every note of the music you hear is what the distant artist intended you to hear—that's tone. When you select or change programs at will by touching just one dial—that's simplicity. When your radio always does just what you wish it to do—that's reliability. When you are glad to have your guests see it as well as listen—that's beauty. When you avoid high prices and at the same time enjoy radio to the utmost—that's economy.

The instruments composing the family of Atwater-Kent Radios differ in special abilities. They are alike in simplicity, reliability, beauty and economy—for these are fundamental.

Hear This Amazing Westinghouse Model 57

The unparalleled performance and pleasing appearance of this new model will amaze you. It sets a new standard for radio sets of the moderate price class. Contains all the latest improvements, including one dial control. Uses the new Westinghouse UX-201-B radio tubes which consume but half the filament current of tubes of equal power. And the price is only \$78.00, tubes extra.

The 57 is but one example of the surprising values awaiting you in the complete new line of Westinghouse radio sets. There is a model to meet every requirement of socket or battery operation—one that will serve you best in your location—at a price that will suit your purse. Demonstrations gladly given in your own home or at our showrooms. Arrange for one to-day.

ORIENT BUYER CANADIAN FLOUR

Vancouver—One of the largest single shipments of Canadian flour to be exported to the Orient was booked on the Canadian Pacific liner Empress of Canada, flagship of the Pacific fleet. The cargo consisted of more than 1200 tons of domestic flour for consumption in China and Japan.

LAKE ATHABASKA FISHERIES ACTIVE

Some 925,000 pounds of fish were caught in Lake Athabaska during the fall season of 1927, according to a report received by R. T. Rodd, Dominion fisheries inspector at Edmonton. The catch was made up of 460,000 pounds of lake trout, 70,000 pounds of whitefish, and 5,000 pounds of pickerel. The fish from Alberta's northern lakes is finding an ever increasing market in a number of American cities.

AMERICANS LOOK TO CANADA

Regina—According to L. H. Newville, of Hastings, Nebraska, investors in that state are looking to western Canada as a profitable field for investment. One trust company in Nebraska, he said, had \$26,000,000 on deposit, some of which would ultimately find its way into Canada for the opening up of farm lands. Mr. Newville predicted a big movement of farmers to western Canada for the next two years. "Interest is keener than at any time since 1905-10," he said, "and many farmers in quest of land have expressed their interest in going to see Canada for themselves."

Local News

Ray Smith made a business trip to Calgary on Wednesday.

Mr. and Mrs. Agate and Mr. Young spent Saturday in Calgary.

Ray Cline and Roy Lano were in town on Wednesday.

C. Burgess was a visitor to Calgary on Tuesday.

M. E. Grosdun has been stock-taling at the Gleichen 24rd of the Crown Lumber Co.

Mr. and Mrs. Ed. Stiles came down from Hussar Wednesday evening.

E. A. Beck is the owner of a new Essex sedan which he bought from Flanagan Bros. local dealers.

Clarence Marquess came in with the mail man from Glen on Wednesday.

R. C. services will be held in Bassano next Sunday, Nov. 26th, at 8:30 a.m.

School Inspector J. F. Boyce is in Brooks this week on a tour of inspection.

F. Corry has bought a new Essex sedan from Flanagan Bros. local dealers for this district.

Mr. and Mrs. E. F. Maurer visited for a few days with Mr. and Mrs. Wm. Kuehle, of Hussar, this week.

The Wolf Cubs will put on a whist drive and dance in the Oddfellows' Hall on Friday evening, Dec. 5th.

Mr. and Mrs. A. H. Maurer have purchased the house recently occupied by Mrs. H. Grayson. They moved in last week.

Mr. Campbell and son came in from the farm near Crowfoot on Wednesday with a team and wagon. They found the road in very bad shape.

The road between Bassano and the Spring Creek Mine is being kept open with the use of a tractor, so it is understood.

Col. E. R. Doughty, of the C. P. R., D. N. R. staff at Brooks, was in Bassano on Wednesday, and addressed the Board of Trade members at their bi-weekly luncheon.

Mrs. A. Atkins and daughter arrived in Bassano on Monday to join Mr. Atkins, C. P. R. assistant superintendent, who has taken the place of A. Dumphry.

Howard and Dale Ferguson came in from Countess on Wednesday with a team and cutter. They report it is drifted deep with snow, they road is closed.

A. F. MacCallum defeated A. Reid in the final of the Gleichen tournament. The match was played off in the frosty weather of last Saturday afternoon.

Wm. McDonald, of Lloydminster, Alberta, stopped off in Bassano for a day this week to visit his brother H. F. McDonald. He is returning from a business trip to the southern part of the province.

Mr. and Mrs. H. Beeber spent last week-end in Calgary.

W. E. Sambrook was a visitor in Calgary for a few days this week.

Ben S. Plumer is in Calgary attending the Alberta Wheat Pool convention.

A. G. Bond went to Calgary Thursday for a day's visit with Mrs. H. Carter.

Mrs. A. R. Maurer went to Gleichen Thursday for a day's visit with Mrs. H. Carter.

Mr. Kusison, of Jenner, is a patient in the Bassano Hospital, having recently undergone an operation.

Next week the Bassano Mail will carry the first advertisement of the Ford Motor Company for their new model car.

A baby girl was born in the Bassano Hospital on Tuesday, Nov. 22, to Mr. and Mrs. Gus Juhnke, of Mile.

Keep in mind the date Wednesday, Nov. 29th. It is the annual chicken supper given by the Knox Church Ladies' Aid, and as usual, they have a sale table of fancy and useful articles ideal for Christmas gifts.

Judge MacDonald, of Calgary, presided at district court in Bassano on Thursday morning. One small fish case was heard, and a couple of motions came up for consideration.

Dairy Cows Bring Prosperity

(from The Family Herald)

We have just been reading a story that is worth passing on. In March 1916, P. C. Guldiner, Wisconsin, purchased a 75 acre farm for \$7,500, paying \$2,500 down—all the money he had in the world. Today that farm is paid for and a substantial payment on another 40 acres. His holdings added a silo, chicken house, hay barn, windmill, and garage. The original house and barn have been improved. He owns four horses, 30 cattle, 67 hogs, and 600 chickens. All of these are paid for. How was it done? A representative of Hussey's Dairyman called on Mr. Guldiner to get the answer to this question. Here is what he discovered. In the first place Mr. Guldiner is a good dairyman. He has a herd of good grade Holsteins that averaged 49.6 pounds of butter fat according to one test association records in 1925. His receipts for cream increased from \$600.50 in 1918, to \$1,841.96 in 1925, although the price was lower in the latter year. At the same time his feed bill decreased \$385. He had improved his cows by breeding and breeding, and he was growing crops on his farm better adapted to milk production. As a result he was getting more money and spending less. His headlines as milk cows are silage and corn silage. The grain, consisting of corn, oats and barley, he supplements with purchased concentrates to bring up the protein. But it was not alone good dairying that paid for this farm. It was good dairying plus diversification. Notice the sources of his income in 1925.—Butter \$1,981.56; hogs \$1,146.39; cattle \$406.96; eggs \$435.95; poultry \$197.54; wheat, \$181.09; potatoes \$175.37; a gross income of \$4,429.87. This leaves a nice margin of \$3,063.77 to keep the family and pay on the mortgage after the total expenses of \$1,465.80 are deducted. This Wisconsin story demonstrates a truth that has often been explained, that extreme speculation is seldom profitable on the dairy farms. It takes severe action to insure the maximum income. This is true in Alberta as well as in Wisconsin.

when required. During the hot weather both windows and screens may be removed. The building is single boarded on each side of the eavesthing, with building paper between, thus forming a wind proof air space. If the straw loft does not extend over the eaves it is advised that the ceiling be boarded from the back to a point level with the outside of the eavesthing.

Blue prints of a house for 100 to 132 feet, for a cotony house 10 x 12 and also a bulletin dealing with all phases of poultry housing construction may be obtained free upon request from the poultry division, Central Experimental Farm, Ottawa, Ont.

Are you in doubt as to the wisdom of a "lump sum" payment to your beneficiary?

Non Life policies give a wide range of income settlement options which solves the problem of safety investing the policy monies. Because of the Company's earning power, the advantage of good interest rates is ensured.

WINTER IN THE CHICKEN HOUSE

(Experimental Farms Note)

It has been the custom to allow four square feet of floor space per bird in the laying house, and houses 20 x 20 feet or 16 x 32 feet are recommended for 100 hens. In actual practice slightly less space is often allowed, especially where birds of the lighter breeds are kept. The space required per bird diminishes as the amount of floor space in the house increases, an area of only three square feet per bird being not uncommon in large houses.

Poultry houses are, with very few exceptions, of frame construction. As a measure of permanence and cleanliness concrete floors are recommended and if properly built on a foundation of loose stone or cinders to facilitate drainage, are most economical in the long run. Where temperatures range below zero a straw loft is advisable since moisture from the birds tends to condense upon the cold roof over their heads and severe colds may result. The straw loft is supported by 1 x 3 inch boards, one inch apart, nailed to the under side of the joists and latched in several sections to allow for easy cleaning and renewal of the straw. A depth of from six to eight inches of straw is sufficient under ordinary circumstances for an efficient loft. As large an area as possible is left open in front to give the maximum amount of ventilation during warm weather. An opening at least four feet in height and running the entire length of the house is recommended, the bottom half closed in by windows and the top wired and supplied with cotton screens, hinged to permit of opening

Port Churchill Open For Navigation During Early Part Of November

Ottawa.—Present conditions at Port Churchill and Port Nelson are similar with respect to the ice situation, according to a statement issued by the Department of Railways and Canals. Both rivers are full of ice, moving in and down with the tides. The statement says in part:

"The Department of Railways and Canals is in almost daily touch with temperature and weather conditions at Nelson and Churchill. The latest message received was on the 11th and conditions at that time were exactly the same at Churchill and Nelson, both rivers being full of ice, moving up and down with the tides."

"On November 6 ice formed temporarily at Churchill, but not to an extent sufficient to have prevented any difficulty to ice breakers such as are employed at the St. Lawrence and at the head of the lake to deal with similar conditions. At the same time, the approach to Churchill was entirely free of ice, whereas a great deal of heavy ice was visible off Nelson. That has been observed to be a recurrent condition there, and is one of the difficulties associated with navigation in the Nelson estuary. The ice there is 20 miles from the partially constructed harbor works. Heavy ice was not observed off Churchill until the 10th instant. The ice there, of both water and air indicates that the current at Hudson Bay is abnormal to the extent of two or three weeks."

Says Bolshevism Is Being Undermined

End Of Soviet Rule Predicted By
Writer

London.—The Warsaw correspondent of the Daily Mail, explaining that he has just returned from Moscow, says that the equivocalness of the Soviet government and the consequent action against the oppositionists signify a split in the Communist Party, and "show that forces are at work which in the long run must undermine Bolshevism."

The writer declares that thousands of those who applauded the opposition speech November 7 were arrested. It was rumored that Trotsky had been arrested, and that his supporters in some places had been shot down, but this could not be verified.

A Riga dispatch to the Daily Mail reports that Trotsky and Gregory Zinoviev have been outlawed and deprived of their homes and means of existence. The correspondent transmits rumors of possible military revolts, with the Stalin group prepared to take flight if necessary.

French Hostages Released

Held Captive By Moorish Brigands
Until Large Ransom Was Paid

Tahiti, Morocco.—The six French hostages kidnapped by Moorish brigands in October, and held for ransom of 5,000,000 francs, in gold, or approximately \$100,000, have arrived at French outposts.

The prisoners, arrangements for whose ransom had been made, included Yves Siegel, nephew of the French resident general, Jean Maillet, Baron von Steinlein, Madame Marie Prokhoroff and two little girls named Armand, whose parents were released recently.

The prisoners were delivered to French outposts at El-Had, at 4 p.m. after the ransom had been paid. Siegel and his party were kidnapped on October 22, while on a hunting trip. The two children were kidnapped several days previously.

Denied Vote In Ireland
Belfast, Ireland.—The Northern Ireland legislature, by a vote of 25 to 14, has rejected Joseph Devlin's bill giving women the right of franchise at 21, the same as men.

President Lord Craigavon said that when the Government introduces its bill to abolish proportional representation it is hoped to embody it in a provision for the enfranchisement of women at 21. It is the Irish parliament did the same.

Gigantic Airplane Carrier
Camden, N.J.—The United States navy's newest and largest seaplane carrier, the Harcourt, is going to sea.

The Harcourt is capable of making 32 knots, with its electrically driven propellers, the maximum 35,000-ton ship is also said to be the fastest large seaplane carrier in the world.

It is equipped with 10 seaplanes and when completed will be assigned to the Pacific fleet.

W. N. A. 1708

Bandits Attack Train

Soldiers Killed and Passengers
Wounded On Mexican Train

Mexico City.—Eighteen soldiers and one soldier very killed when a large group of bandits attacked a passenger train between Toluca and Aguascalientes, a dispatch from Aguascalientes state. The bandits attacked the engineer and a fireman.

Twelve soldiers and six passengers, including a woman and two children were wounded in the encounter.

No detailed account of the attack was given, the dispatch merely stating one officer and the soldiers, entrenched in one of the cars, fought to the last.

The train afterwards arrived in Aguascalientes with the wounded. It was presumed the bandits had been captured before the train continued its journey.

Nine soldiers of the train guards were killed and 12 second class passengers and an express messenger were injured when several coaches of the Puebla-Toluca passenger train stopped in Mexico state.

The accident occurred about 25 miles from Jalapa.

BRITAIN DECIDES ON REDUCTION OF NAVAL PROGRAM

Horses For Chicago Show

Western Canada Breeders To Have
Entries In Livestock Exposition

Chicago.—The horse breeders of Western Canada, long renowned for their success in the production of high grade draft animals, will come to the International Livestock exposition here this week, favored to win a large share of the ribbons in the horse classes.

Particularly in the Clydesdale class are they expected to make a strong showing.

Many of the famous names among the Canadian breeders are absent from this year's entry list in the Clydesdale class.

The breeders of last year's grand champion, are not entered, but are J. H. Pearce, who bred the reserve champion. However there will be a heavy entry from other Western Canadian breeders.

Work On Road To Elin Flon Mining Area

May Commence Soon

Winnipeg.—It is regarded as practically certain that the provincial government's offer to build a railway from Winnipeg to Elin Flon, in the Pincheon mining area, will be accepted.

The offer was made by the Pincheon Mining area, which is situated in the Pincheon mining area, which is situated in the Pincheon mining area.

Magazine For Canadian Clubs

First Issue In January Of Quarterly
Publication

Ottawa.—Canadian clubs will have a regular publication. The executive committee of the Association of Canadian Clubs, it was announced, has decided to proceed with a quarterly magazine, the first issue of which will be in January.

The publication will carry articles on Canadian affairs and Canadian Club information. It will replace the present Canadian Club address book.

An interchange of speakers between the east and west is also being arranged. E. J. Garland, M.P., Bow River, Alta., will address 20 Canadian clubs in Eastern Ontario and the Maritimes, while H. S. Spencer, North Battleford, will address clubs in Western and Central Ontario. The subject of their addresses will be "The Western Point of View."

Mr. Herbert Ames, former Canadian representative at Geneva, will speak throughout the prairie and British Columbia on Canada's position in the League of Nations.

WHO LOWERED THE COST OF LIVING FOR THIS DISTRICT

Curling News

The chinook weather has put a crimp in curling prospects, and made it impossible to go ahead with too making.

The executive held a meeting this week and decided to draw up a schedule on the single draw plan.

Dr. Scott and L. Young were appointed tea committee.

The Scott Challenge Cup games promise to be more keenly contested than last year.

Twelve rinks have been filled with the exception of one or two men. It is expected, however, that all the rinks will be ready as soon as the season opens.

The first competition will be that between the president and vice president teams.

Duchess News

DUCHESS, Nov. 24—Miss C. Spicer returned from Calgary Friday night where she spent a few days.

Quite a number from down attended the party at Miller's, and report a good time.

There was no sermon at the Union Church last Sunday owing to the fact that Rev. Moore was unable to get there.

Mr. and Mrs. S. A. Hamer went to Leithbridge Monday where Mrs. Hamer will receive medical attention.

Glass Sigon, of Idolstone, came up Tuesday morning, returning home on Wednesday night.

The winners at the whist drive on Wednesday evening were as follows: lady's first, Mrs. Miller; second, Mrs. Woodward; gentleman's first, Dave Miller; second prize was won by a travelling salesman.

DEATH OF BERNARD GERDING

The death occurred in Bassano on Thursday, Nov. 24th, of Bernard Gerdling, pioneer homesteader, of Pandora. Deceased was 66 years of age. He leaves a wife and nine children.

THE WORK OF THIS NAVY LEAGUE

The Rev. Fred Cooke, representative of the Navy League of Canada, who has been in Bassano taking up subscriptions to Canada's National Journal of Yachting and Shipping, and donations for the Navy League, wishes to thank the citizens for assistance. They subscribed about \$45 to the Alberta Division.

The Navy League assists the orphans and widows of our men of the merchant marine, as they do not receive government assistance. The Navy League supports sailors' homes and institutions, etc. in all our larger Canadian ports from coast to coast, and looks after the welfare of our seamen when ashore. The Navy League also trains boys and young men and makes better Canadian citizens of them.

The Alberta Division is required to raise \$5,000 as its quota to the \$250,000 budget of the Navy League, and hopes to raise this amount as quickly as possible with the combined assistance of our people throughout the province.

The Navy League directed some 800 boys and young men into the merchant marine in 1926, and its work is almost entirely in its interests.

All matters belonging to the league can be referred to headquarters and there regulated.

Subscriptions to the Sailor's Magazine as well as donations for the Navy League can be sent to John A. Irvine, 917 First St. East, Calgary.

The Butler and Darby vaudeville entertainers put on a program in the Grand Theatre last Friday and Saturday evening, in addition to the regular picture program. Their music, ventriloquism, and mind reading acts were well received by the theatre goers. The mind reading act proved particularly interesting and satisfying.

Urgent Engagement
Teacher—"What is wind?"
Karl—"Wind, teacher, is air in a hurry."
